

Simply stunning white on white with triple gable detail! Like your fourth bedroom to be used as a guest room or a study? The fourth bedroom is positioned separate from all other rooms but close to the powder-room for easy access and close to the foyer for client meetings. A covered outdoor area with optional overhead skylights gives you an outdoor space out of the weather or shade. The master is offset to provide the main outdoor area privacy and shelter. If you're looking for that classic home, you'll love living in, this is a great place to start!
